Cluj-Napoca | IT Software | IT / Telecom

Using relational databases , experience with Talend Jobs , experience in Data Warehouses , experience in ETL Tools, Agile .

Acquired skills and knowledge:

SQL, Data Warehouse, GIT

Education

2017 - present

Bachelor's degree - TECHNICAL UNIVERSITY OF CLUJ NAPOCA

COMPUTER SCIENCE | Cluj Napoca

Skills

General skills

Java, SQL, JavaScript, Python, react

Skills from work experience

Foreign languages

English - Advanced

Other info

Projects

Personal Mini-Projects in React :

period Jun 2020 - Aug 2020

Calculator :

<https://codepen.io/georgecraciun98/pen/MWyXgrb>

Markdown Previewer:

<https://codepen.io/georgecraciun98/pen/vYGWOXK>

Drum Machine :

<https://codepen.io/georgecraciun98/pen/KKzyQxG>

Auction Application

period Nov 2019 - Jan 2020

I've realized an Auction Application in Spring MVC Web,using Bootstrap and MySQL , with the next functionalities :

-add/register user/login

-see products by category,every product has name/description and photos

-add products once you are logged in

BitBucket Link:<https://bitbucket.org/georgecraciun98/auction-application/src/master/>

Restaurant Management System

period May 2019 - May 2019

I've realized a basic application which implements the basic functionality of a restaurant in Java , with 3 user Interfaces : Admin,Chef and Waiter, you can add menu items on the menu,the waiter can create orders,add items from menu to the order and print de final Receipt . The Chef is notified whenever a new dish it's ordered .

BitBucket link: <https://bitbucket.org/georgecraciun98/restaurant-management-system/src/master/>

Warehouse Management System

period Apr 2019 - Apr 2019

Warehouse management system using relational databases .

It has 2 panels :Client and Product, In client panel can make orders ,we can insert clients,search them in the database .In the products panel with can insert product,edit or delete them,and find products by id .

Bitbucket link : <https://bitbucket.org/georgecraciun98/warehouse-management/src/master/>

Trainings

The Web Developer BootCamp

period Dec 2019 - Feb 2020

I've completed "The Web Developer BootCamp" training on Udemy . This helped me to understand the basics conception of internet , to learn FrontEnd and Backend and to use them to build my personal projects . Technologies Learned and Improved :

HTML,CSS,JAVASCRIPT,BOOTSTRAP , Node , Databases,REST API,Authentification , GIT,Semantic UI .
